FOR IMMEDIATE RELEASE

September 24th – October 12th 2019
MALKA INBAL will exhibit SHOOTING THE SUN paper mache
Gallery hours: Tuesday to Saturday 11am-6pm

She screamed: "How dare the sun arise, when I didn't sleep at all?!" Furious she wanted to shoot the insolent sun.

The series SHOOTING THE SUN talks about insomnia from which the artist suffers. For a while she used to take pictures of herself and surrounding during those terrible nights. The pictures were deformed, printed on plain paper and soaked into paper mache. The colors smeared and faded, showing the artist's state of mind.

Malka Inbal studied at Kamera Obscura Art School in Tel-Aviv. **She developed her own personal technique using a silvery screen and later paper mache.**

She exhibited in many solo exhibitions: among them at the ISRAELI MUSEUM OF PHOTOGRAPHY and at KOWASA gallery in Barcelona (Spain).

She has also taken part in many group exhibitions throughout the world, such as in the CITES DES ARTS Paris, the museum of "THE GREAT 4 MUSEUM" in Chongching, China and in NYC.

Her work is in public collections "TEL HAI PHOTOGRAPHY MUSEUM" and private collections VISION gallery – Jerusalem (Neil Folberg's gallery) and others.

It is discussed in academic lectures, professional and design magazines, newspapers and radio.

The artist will be in NYC from May 9th and is available during the exhibition.
