About JCAT

Art is my journey. A team of artists connecting the world, Japanese Contemporary Artists Team

Based in New York,
this unique, global creative team has over 200 artists under its belt.
JCAT discovers talented artists from a variety of backgrounds
and promotes numerous works to the world
through methods based on its unique experience.

In an age where anyone can become an artist through social media,
what's important is for artists to continue creating every day
toward the next stage and sharing their stories with the world.
JCAT supports all artists' creative endeavors from every angle
so that they can make a living doing what they love.

About JCAT

The power of art

Do you know the "power of art"?

Every human action is accompanied by a state of mind.
Before you take any action, your mind decides which direction it will take you.
When your mind is disturbed or you live an unnatural life,
you will unknowingly be living a life that is not your own.

At times like these, encountering art teaches us
how important it is to "stay true to ourselves."
The invisible power of art always naturally returns you to your true self.

Art is a prescription for living a spiritually enriched life

About JCAT

May art become a bridge for peace on Earth!

JCAT's goal is to support all artists with potential
until they grow into independent artists
who can compete on the world stage,
and to create a society in which more people can have contact
with art and live their daily lives enriched.

Word from JCAT Director

The theme of the 2024 JCAT Exhibition will be "NATURE."

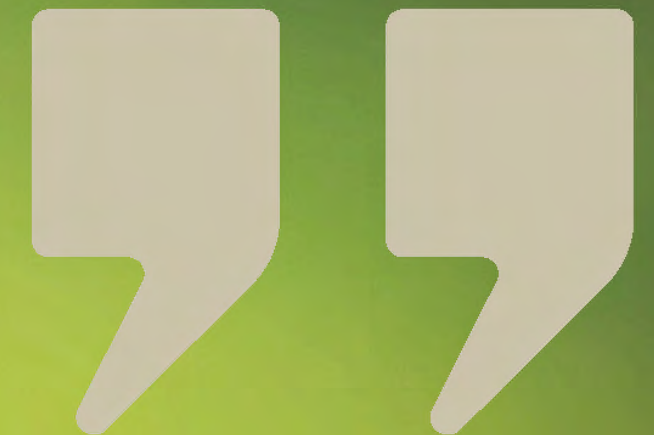

With an eye towards the future, artists around the world are beginning to think about the Earth, the environment, and society, and to endeavor for sustainable ways of living.

We, up-and-coming Japanese artists, are pioneers of this era, and our goal is to convey "NATURE" to people through art. This will be the theme for 2024.

We aim to bring artists from all over the world together to achieve our goal.

JCAT Director ARISA

Exhibition Theme

They are united by their Japanese roots
and by putting soul into art.
Each of our personalities is inspired
by the land, environment and society
in which we were born and raised.
Although they share the same roots in Japan,
there are differences and individuality.

We want to pass on to our children, and to
the countless other lives that will be born
in the future, the tradition of walking
in harmony with the Earth,
the environment, and society.

This is "NATURE" played by each artist.

NY Exhibition 2024

History of JCAT

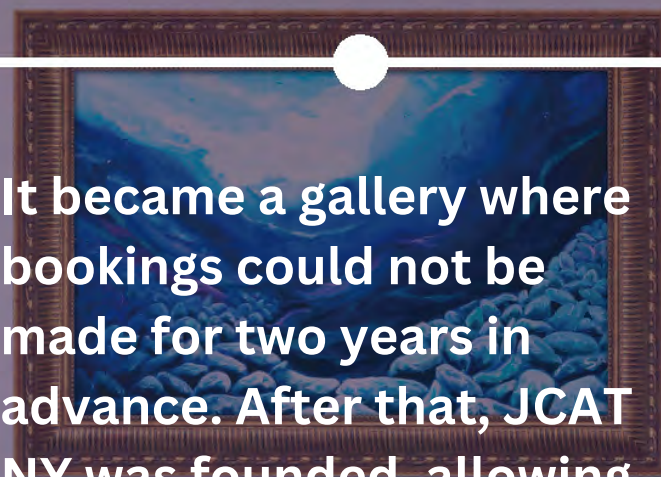

JCAT began with an exhibition for just one artist, and since then, has supported over 2,000 artists.

2008

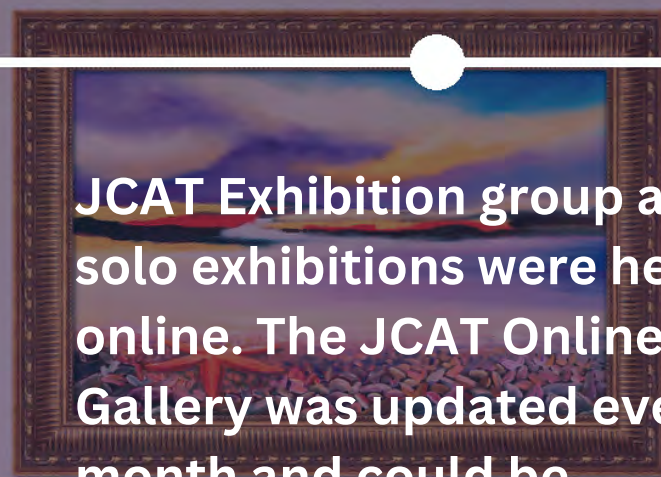

Started an exhibition for one artist in an apartment in Brooklyn, New York, which was once a shoe factory, and it was a huge success. After that, through Ouchi Gallery, Japanese artists were able to connect with people all over the world.

2014

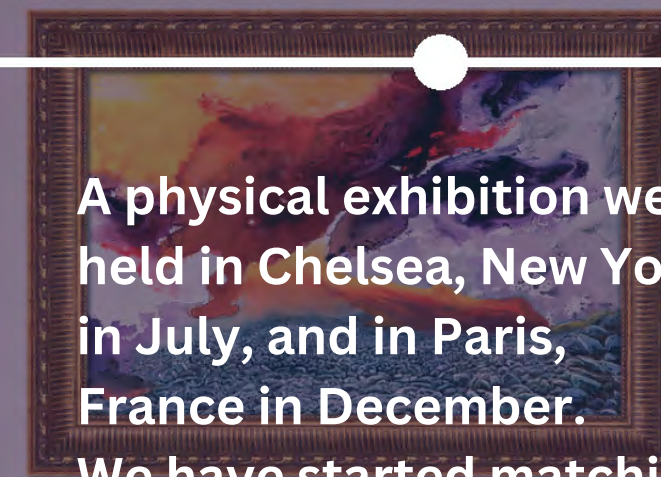

It became a gallery where bookings could not be made for two years in advance. After that, JCAT NY was founded, allowing it to work all over the world without a physical location.

2020

JCAT Exhibition group and solo exhibitions were held online. The JCAT Online Gallery was updated every month and could be accessed 24 hours a day, connecting the art world with the online world.

2022

A physical exhibition were held in Chelsea, New York in July, and in Paris, France in December. We have started matching JCAT artists with art lovers.

Exhibition Venue

Noho M55 Gallery

Noho M55 Gallery is a partnership of two of the oldest and most respected artist-led galleries in New York. Our guiding philosophy is to exhibit artworks of high quality in all media, diverse in style and content. Member artists are allowed the freedom to control their own destinies while benefiting from professional guidance from our combined 85-years experience. M55 Art (originally 55 Mercer Street Artists) was formed in 1969 at 55 Mercer Street and Noho Gallery (originally located just north of Houston Street) formed in 1975. In 2012 the two became partners.
